Hi Darin –

Candice Bauer asked me to respond to your August 9 email (see below) and the voice mail messages you have left these past few weeks asking for information regarding the status of Region 5's review of the Illinois CAFO general permit. I left you a voice mail message on September 7 but have not heard back from you so I wanted to follow up by email.

I have reviewed the March 2017 pre-public notice draft of Illinois EPA's general NPDES permit for CAFOs, as well as Illinois EPA's responses to comments from Region 5 on an earlier draft. I would like to schedule a time to discuss a few of the permit conditions. Below is a list of topics I would like to discuss.

- ♦ Availability to the public of approved plans incorporated as conditions of the permit
- ♦ Consistency of Special Condition 3a and 3k with 502.605 and 502.810, respectively
- ♦ Permit authority responsibilities under Special Condition 3.p. and applicable timeframe for implementation
- ♦ Requirements for content of SWPPP under Special Condition 6
- ♦ Recordkeeping requirements for off-site land application established in Special Condition 8.c.
- ♦ Notification to the petitioners prior to public notice
- ♦ Next steps prior to and after public notice

Can we schedule a time to discuss this topics? Unfortunately, I am will be on travel most of next week attending the ACWA CAFO Roundtable. I have listed some dates and times that I am available, please let me know if any of these will work with your schedule.

Friday, September 28, anytime 9am – noon

Tuesday, October 2, anytime 9am – 1pm

Wednesday, October 3, 9:30 to 10:30 am or 3:00 to 4:00 pm

Thursday, October 4, anytime 10am – 1pm

Candice,

I was just curious if Region 5 staff had a chance to look at that last draft of the CAFO general permit? Sanjay asked me yesterday if I had ever heard anything.
